

## “A positive vision”<sup>1</sup>

“It is one thing to campaign against Climate Change and quite another to paint a compelling and engaging vision of a post-carbon world in such a way as to enthuse others to embark on a journey towards it.”

## "Harnessing the power of a positive vision."

"The first step to creation of a localised, low-energy abundant future is actually visioning possibility [of] a powered-down future - a positive vision - one which is energy-lean, time-rich, less-stressful, healthier and happier."<sup>1</sup>
