

# An inconvenient truth<sup>1</sup>

“It is evident in the world around us that very dramatic changes are taking place.”

“The message is unmistakably clear. The climate crisis is...extremely dangerous. In fact, it is a... planetary emergency. Unless we act boldly and quickly to deal with the underlying causes of global warming our world will undergo a string of terrible catastrophes.”

“Scientific understanding of climate change is now sufficiently clear to justify...taking prompt action...to solve the crisis of global warming.”

“The choice is ours.”<sup>1</sup>
